Mission

This guide has been created to enhance your stay with us. We've included a wealth of information, along with helpful links and QR codes, to ensure you have an unforgettable vacation.

Enjoy exploring!

IMPORTANT

Airport to Villa Direction

When you arrive at the Puerto Plata airport (POP), please check to use the good road to the Villa. The two roads in red are not usable by car. The villa is approximately 28km away from the airport, with a travel time of around 49 minutes.

Jumbo Grocery Store will be on your route. We usually stop along the way to get groceries for our stay at the villa. (see page 7)

IMPORTANT

E-Ticket

Utilise mon lien de E-Ticket car il y a de faux sites sur Google et ils chargent des frais.
Le vrai E-Ticket est gratuit. Voici l'adresse de la villa:

Calle Principal
Loma de la Bestia
Puerto Plata

Il n'y a pas de numéro de porte. Ils nous le demande pour le ETicket quand on passe
les douanes alors j'écris toujours juste 1234 et ça fonctionne

Vous pouvez faire vos enregistrement de départ ou d'arrivée dans le pays le jour
même. Je le fait souvent a l'aéroport même en attendant mon vol.

IMPORTANT

E-Ticket

Use this E-Ticket link because there are fake sites on Google and they charge fees. The real E-Ticket is free. Here's the address of the villa:

Calle Principale
Loma de la Bestia
Puerto Plata

There's no door number. They ask us for the ETicket when we go through customs, so I always just write 1234 and it works.

You can check in and out of the country on the same day. I often do it at the airport while waiting for my flight.

IMPORTANT THINGS TO KNOW ABOUT VILLA

✓ Lights and AC

Please turn off the air conditioning when you are not using the rooms and it is very important to turn off the pool lights at night to avoid attracting moths and mosquitoes into the pool.

✓ Free drinking water

We offer you free drinking water. Water jugs are hidden under the island. When they are empty, simply open the doors and change the jugs.

✓ Power outage

The Dominican Republic regularly experiences power outages. For this purpose, we have two large batteries with a capacity of approximately 4 hours. Everything works except the refrigerator and air conditioning during outages. It is very rare for an outage to last more than 4 hours.

✓ Hot water at will

Hot water is included and at will if it runs out simply turn off the tap and turn it back on it will come back.
